Daniel Aldemir

.NET SOFTWARE DEVELOPER · ENTREPRENEUR

Profile

Award-winning entrepreneur (Digital Agent of the Year 2021) with over 20 years of experience in leadership, business development and customer relations, now a software developer. I take projects from idea and requirements to a finished system with a modern AI-assisted workflow, and I am used to taking responsibility, seeing the whole picture and delivering value.

Experience

Software developer intern · CIL Inventions — 2026

Helped build three production projects in a team.

- **IoT platform for water-damage prevention:** multi-tenant, real-time monitoring and control of connected devices, alarms and role-based access.
- **System configurator:** step-by-step dimensioning with a rules engine and automatic document generation.
- **Company website:** ASP.NET Core with a .NET CMS (Umbraco), deployed via CI/CD.

Tech: C#/.NET, TypeScript, React, PostgreSQL, Docker, Terraform, GitHub Actions

Software developer · own projects — 2026

- **Business system:** the store's app for cash, payroll, scheduling and marketing, in daily use. .NET 10, EF Core and React.
- **direktenryd.se:** the store's website in Astro and Sanity CMS.
- **World Cup 2026:** prediction game, live all tournament long. vm-2026.pages.dev · github.com/danielaldemir79/vm-2026

Store owner & business developer · Direkten Ryd — 2005-present

- Turned the store into one of Sweden's leading service stores.
- Responsible for staff, marketing, finances and business development.
- Led the digitalisation and built a well-known, award-winning brand. **Digital Agent of the Year 2021**, nominated for Direkten Store of the Year.
- Started a fundraiser for the Swedish Childhood Cancer Fund in 2018 that has raised over SEK 233,000.

Education

Software Development .NET · TUC Yrkeshögskola — 2025-2027

Top grade (VG) in every completed course.

Natural Science Programme · Katedralskolan, Linköping — 1995-1998
